## SUMMARY

As a passionate and eager-to-learn fresher, I am a self-motivated MERN (MongoDB, Express.js, React, Node.js) stack developer with a strong foundation in web development. Passionate about building user-friendly applications and improving the user experience.

## PROJECT

### Personal Portfolio Website

[ck-portfolio-dun.vercel.app](https://ck-portfolio-dun.vercel.app)

- Developed a fully responsive personal portfolio website to showcase projects, skills, and contact information.
- Designed a clean and modern UI with smooth layout transitions and mobile-friendly navigation.
- Optimized overall performance and ensured cross-browser compatibility using best frontend practices.
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, Git, GitHub, Vercel.

### React Project

- Built an interactive and responsive web application using **React.js**, implementing reusable components and efficient state management.
- Integrated APIs to dynamically fetch, display, and update data with optimized performance.
- Used React Hooks, routing, and component-based architecture to enhance maintainability and scalability of the project.

### Expense Tracker MERN project

- Built a full-stack Expense Tracker application using MongoDB, Express.js, React.js, and Node.js (MERN).
- Implemented JWT authentication, user registration, login, and protected routes for secure data access.
- Created APIs for adding, updating, deleting, and fetching expenses/income transactions.
- Designed an intuitive dashboard showing total balance, income, expenses, and graphical insights.
- Used React Hooks and Context API for global state management.
- Integrated charts using Recharts to visualize monthly spending and income trends.
